

PRODUCT INFORMATION

DIVIDE BUCKET MVB

These dividing buckets MVB are equipped as standard with stirring auger at the top, an auger at the bottom, left and right discharging and dosing plates above conveyor belt. The necessary connection for this attachment demands 1x double-acting hydraulic function.

VERSATILE ATTACHMENT

This distribution bin is suitable for the following bedding materials: thick fraction, horse manure, chopped straw (max. 7 cm), ground straw, straw/water/lime mixture.
