

PRODUCT INFORMATION

EARTH BUCKET TOP CLAMP

These earth buckets with top clamp come standard with a Hardox wear plate. The required connection for this attachment demands 1x double-acting hydraulic function.

WIDELY APPLICABLE ATTACHMENT

The TOBROCO-GIANT earth bucket is equipped with an additional (upper) clamp. With this additional clamp and hardox wear blade, the bucket is widely applicable. The innovative design allows easy gripping and moving of heavy materials such as tree trunks, manure or roughage.
